

TALAT ILYASS

Shopian, Jammu & Kashmir, India | +91-9541984866 | talatilyass07@gmail.com | talatilyass.netlify.app

PROFILE

B.Sc. Biochemistry & Bioinformatics researcher combining wet-lab molecular biology with *in silico* structural analysis. Proficient in executing core biochemical assays (PCR, Western blotting, DNA extraction) and independently optimizing lab workflows through custom Python scripting. Technically fluent in terminal-based environments (Bash, Zsh) and molecular visualization tools (PyMOL, VMD, UCSF ChimeraX). Experience applying this wet-dry toolkit to sequence-level and structural analysis of kinase signaling cascades.

EDUCATION

Bachelor of Science (B.Sc.) in Biochemistry [2023 – 2026]

S.P. College, Srinagar — Cluster University of Srinagar

Relevant coursework: Biochemistry, Molecular Biology, Microbiology, Bioinformatics, Biostatistics.

RESEARCH EXPERIENCE

Research Intern – S.P. College, Srinagar [January 2026] – [March 2026]

Department of Biochemistry

Supervisor: Dr. Shafat A.

Project: Molecular crosstalk between mTOR and p70S6 kinase in actin cytoskeletal dynamics

- Investigated how p70S6K modulates actin cytoskeleton remodelling through phosphorylation-dependent signalling pathways, with a focus on structural domains of actin-interacting proteins.
- Prepared a comprehensive scientific review synthesising primary literature; produced presentation decks for professorial review and mentorship feedback.

TRAINING & CERTIFICATIONS

Mentee – SPROUT Program, Summer Cohort 2026 [Jun 2026 – Present]

JK Scientists, (Support Program for Research Outreach and Upskill Technology), J&K, India

- Selected as mentee in this flagship J&K Scientists initiative empowering youth toward academic excellence and research careers.
- Participated in structured sessions on profile building, research methodology, international internship/scholarship strategy, AI & ML career pathways, and innovation ecosystems.
- Received mentorship from researchers at national and international institutions on academic planning, CV writing, and SOP preparation.

Diploma in Clinical Testing & Lab Technician [2023 – 2025]

Sri Pratap college, Srinagar

Python Developer

Solo Learn

SKILLS

- **Computational:** Python (pandas, NumPy, matplotlib/seaborn), Linux/terminal (bash, zsh), Git, Jupyter/Colab, LaTeX, Excel/Sheets, PyMOL, BLAST, NCBI/UniProt, sequence alignment & structural visualisation, UCSC Genome Browser, PubMed.
- **Wet-Lab:** DNA extraction, PCR, agarose gel electrophoresis, colorimetric assays, standard-curve analysis, competent cell preparation, basic microbiology technique.
